

RTE One The Afternoon Show

"Wedding Of The Year" - Rings Chosen from Martins Jewellers

Congratulations to Claire & Liam the winners of the Afternoon Show Wedding of the Year. Martins jewellers were chosen to design and make the wedding rings for Clare and Liam, winners of RTE's Afternoon show wedding competition.

The rings were demonstrated using the latest 3D CAD software (Matrix by Gemvision)

This is the first time this technology has been available in Ireland and allows 3D images of any proposed piece of jewellery.

Matrix 3D is used by such companies as Tiffany's (New York).
It has even featured on CSI Miami!
